Report of the Event

Title of the Event: **Workshop on Computer Programming**

Organized Date: 20th May 2014 to 21st June 2014

Summary: This two-day workshop covers an intense curriculum designed to give beginners complete, basic programming skills to use in their studies or workplace. It is intended for everyone who wants to learn basics of programming and does not have an opportunity to do so as a part of their studies. Over the course of the workshop, participants will learn programming language through lectures and hands-on sessions, supported by a team of mentors.
