<p><b>Summary of the Event</b></p>	<p>This event was held through webex thus each student was provided with a laptop. The aim to organize such an event was to give knowledge to our students and develop their interest on digital learning. Secondly, it aimed to show the progress of the field of science. The learning program was particularly well-suited to grow vocational skills in addition to soft skills. Our students showed a great deal of interest and made the session a success. Students were excited all throughout the event and gained a lot of knowledge and information by the end of the day.</p>
