Summary of the Event	<p>An event was conducted by IES and IAS members on “Technical empowerment of farmers” in Gokaram village where IES members organised a small presentation in a high school and explained students about the upcoming trend of using drone farming in agriculture sector and its useful properties. Harshitha the host told about advantages of drone farming and how we can make one of it in cheap price.</p> <p>The overall event was interactive where both students and professors showed their immense interest in this topic and clarified their doubts. The overall event ended successfully by distributing refreshments to students and professors.</p> <p>Later all members visited farms and interacted with some farmers. They talked about ongoing agricultural processes and also, they explained about drone farming to the farmers. Here also the talk was interactive where farmers took interest in learning new technologies in agricultural farming.</p> <p>In this way the visit came to an end by presenting the importance and usefulness of drone farming in school and explaining it to farmers also.</p>
